

# HAYS CV CLINIC

## STUDENT FEEDBACK

**Ethan**

The CV session provided very useful feedback for me. I was provided with new insight on how to structure my CV to cater towards what employers would specifically look for.

**Oliver**

Leon was a fantastic help during our 1-1 session, providing valuable advice to help highlight relevant work experience, and to keep my CV concise and easy for recruiters to read through. Highly recommend!

**Adama**

Participating in the CV Clinic session with Hays was incredibly valuable, providing personalized insights and expert advice that significantly enhanced my resume. It was a great opportunity to receive direct feedback and guidance tailored to the tech industry. The one-on-one session not only improved my resume but also gave me a deeper understanding of the hiring process in the tech sector.

**Elliot**

A review session with Hays was really helpful in giving me the insight on how to tweak the structure of my CV to better appeal to potential employers, with the advice to add a technical skills section being a specific action point I was given. I believe that my CV now more accurately represents my skills and experience.

**Conor**

I found Hays Recruitment very friendly and supportive. Their years of knowledge towards the tech industry and how to get your foot in the door is very helpful and has shown me how to make my CV stand out.

**Ben**

Hays were very insightful, not just how to write a cv but from the employers side of things, how to make it streamlined and not waste time. The addition of being really nice people and talking to us about additional soft skills was very helpful
