DEFINITIVE COURSE RECORD

The BA (Hons) Social Work Course is designed to prepare students for the constantly changing and challenging environment of social work and social care practice. Underpinned by a strong commitment to social justice, the programme combines a clear academic focus on the theoretical underpinnings of social work with careful attention to practice skills, knowledge, values and personal and professional development. Relevant knowledge and theory for practice includes psychological and sociological theories applied to a range of practice contexts, approaches to research and evidence informed practice, knowledge and understanding of law and policy. Employers in statutory and private, voluntary and independent sectors provide practice-learning opportunities for levels 5 and 6. In addition, skills development is supported through practice workshops with people with lived experience (service participants) and practitioners, focusing on, for example, communication, direct and specialist work, and inter-professional practice. Study time is built into the programme for students to pursue their own increasingly independent learning and in Level 6; students are expected to develop this to produce a dissertation with individual supervision.
